

## MEHGA PATEL

### EDUCATION **COLUMBUS COLLEGE OF ART & DESIGN**

BFA Animation  
President's List

### WORK EXPERIENCE

---

#### **COLUMBUS STATE COMMUNITY COLLEGE** | Intern Medical Illustrator

- My tasks included research, illustration, & design.
- Illustrations created were for professors to use in lecture.
- Completed 2 medical illustrations:
  - Depicted the process of fat digestion through the small intestine.
  - Depicted the development of sexual characteristics in utero.

#### **BOLO BOLO BABY** | Freelance Designer for startup company

- My duties were to create well designed page layouts, illustrations, and branding assets for the start up company, Bolo Bolo Baby.
- I communicated directly with the founder of the company to create designs and products for children learning a new language.

### ILLUSTRATION COURSEWORK

---

#### **MEDICAL ILLUSTRATIONS** | Adobe Photoshop & Illustrator

- Master copy illustration of the right front shoulder
- Line illustration of an eye cross section

#### **BOTANICAL & ZOOLOGICAL** | Adobe Photoshop

- Illustrations of the Belted Kingfisher bird & the Green Ash tree.
- Designed and inserted into an informational flyer at the Ohio Wetlands for the Mad Scientists Associates.

#### **CHILDREN'S BOOK** | Procreate & Adobe After Effects

- Illustrated a Gujarati alphabet book for kids:
  - 55 page book with 48 illustrated letters.
  - 36 animations to accompany and promote each letter.
  - Designed alphabet poster to accompany the book & animations.

### ANIMATION COURSEWORK

---

#### **PSA VACCINATION** | Adobe After Effects

- A 5 minute motion graphic on the importance of getting vaccinated.
- The goal was to educate the general public on how vaccines work and to placate any concerns preventing people from getting vaccinated.

#### **PHLEBOTOMY TUTORIAL** | Adobe After Effects

- A 2 and a half minute animation depicting the step by step process of phlebotomy or 'drawing blood'.
- Meant to be educational for nursing students, in-training phlebotomists and medical students.

#### **MEDICAL ANIMATIONS** | Procreate & Adobe After Effects & Illustrator

- Heart Anatomy & Blood Flow: 2 and a half minute educational animation for students an/ord patients.
- The Skeletal System: 2 minute educational motion graphic for students.
